

RAGHAVA AVERINENI

Maryville, Missouri | Email: raghavaoffc@gmail.com | Phone: +1-945-296-9330 | LinkedIn: [LinkedIn Profile](#)

Professional Summary: Innovative and passionate Full Stack Developer with over two years of experience crafting applications that make an impact. Expert in Java, Spring Boot, and microservices for building robust backends, combined with React.js to design seamless, engaging user experiences. Known for transforming challenges into creative solutions and delivering software that stands out. Fueled by a love for technology, I bring ideas to life with code that inspires and performs

Skills

- **Programming Languages:** Java, Python, C++, SQL
- **Frontend Technologies:** React.js, HTML, CSS
- **Frameworks:** Spring Boot, Microservices Architecture
- **Database Management:** SQL Server, MySQL
- **Integration Technologies:** ESB (Polar Lake preferred)
- **Other Skills:** System Architecture, Technical Documentation, Agile Development

Experience

Full stack Developer | Harrier Automations | Hyderabad, India | Feb 2023 – Aug 2023

- Designed and implemented scalable microservices using Java and Spring Boot, optimizing system performance and scalability.
- Created RESTful APIs for seamless data exchange and integration with frontend systems.
- Built dynamic user interfaces using React.js, enhancing user experience.
- Collaborated with cross-functional teams to deliver high-quality software solutions. Technologies: Java, Spring Boot, React.js, SQL Server, Git.

Software Engineering Intern | KMIT | Hyderabad, India | Sep 2022 – Feb 2023

- Reverse-engineered legacy systems to design modern microservices-based architecture.
- Contributed to building middleware solutions using Java for secure and efficient data integration. Technologies: Java, SQL, Git.

Full Stack Development Projects

Recycling Management System

- Developed a full-stack recycling management application to track and optimize recycling processes.
- Built the backend using Spring Boot for microservices, ensuring scalability and efficient data handling.
- Designed a responsive frontend with React.js for seamless user interaction.

- Deployed the application locally and documented detailed system architecture for potential cloud migration.

Technologies: Java, Spring Boot, React.js, SQL

Scorecard Application

- Designed and developed a scorecard application for managing and visualizing sports or academic scores.
- Implemented the backend with Spring Boot to handle CRUD operations and ensure efficient data processing.
- Created an interactive frontend using React.js, offering intuitive dashboards for real-time score tracking.
- Integrated RESTful APIs for seamless communication between the frontend and backend.

Technologies: Java, Spring Boot, React.js, SQL

Education

M.S. in Information Systems

Northwest Missouri State University | GPA: 4.0/4.0 | Aug 2024

B. Tech in Information Technology

Keshav Memorial Institute of Technology | GPA: 3.6/4.0 | Jul 2023

Certificates

- AWS Certified Solutions Architect
- Meta Database Engineer Professional Certificate – Coursera
